

Sheffield's ten-year vision for adult social care

Plan on a page

What are we trying to achieve?

Everyone in Sheffield lives in a place they can call home, in communities that care, doing things that matter to them, and when they need it, they receive care and support that prioritises independence, choice, and recovery.

<p>How will we achieve it? What are our commitments?</p>	<ul style="list-style-type: none"> Support people to live a fulfilling life at home, connected to the community and resources around them, and provide care and support where needed. 	<ul style="list-style-type: none"> Provide temporary assistance to help people regain some stability and control in their life following ill health or crisis. 	<ul style="list-style-type: none"> Provide care and support with accommodation where this is needed in a safe and supportive environment that can be called home. 	<ul style="list-style-type: none"> Make sure support is led by 'what matters to you', with helpful information and easier to understand steps. 	<ul style="list-style-type: none"> Recognise and value unpaid carers and the social care workforce and the contribution they make to our city. 	<ul style="list-style-type: none"> Make sure there is a good choice of affordable care and support available, with a focus on people's experiences and improving quality.
<p>What will we do?</p>	<ul style="list-style-type: none"> Support community designed and delivered foundations that provide a supportive partnership of care and support. Develop an accessible team model where social work staff can really work in partnership with and get to know their community. 	<ul style="list-style-type: none"> Deliver a strong, reactive offer of services that provide flexible and intensive crisis support. Shift our resources and focus to develop and deliver more proactive, preventative approaches. 	<ul style="list-style-type: none"> Develop vibrant options for care that offer more choice, that help the person to retain or regain control of their life, and build on the strengths of the person and their networks. Transform care at home in Sheffield, focussing on improving experience and outcomes. 	<ul style="list-style-type: none"> Overhaul how we share information so that it meets the needs of everyone in Sheffield, with plain language and simplified access steps. Invest in a system-wide approach that means everyone receives the same standard and continuity of care that is enabling and preventative. Develop a consistent approach to person-centred care and 'co-production' across all partners. Deliver more flexible and simplified ways for people to be able to purchase and arrange their care and support. 	<ul style="list-style-type: none"> Develop and deliver a place-based, cross-sector workforce strategy with particular focus on equality, diversity, and inclusion. Embed a clear support offer and structure for all carers. 	<ul style="list-style-type: none"> Ensure people can move between care and support more easily, including health, social care, providers and the voluntary, community, and social enterprise sector. Embed shared accountability alongside co-designed plans and priorities for adult social care.
<p>What will people say?</p>	<ul style="list-style-type: none"> I know what services and opportunities are available in my area. I am confident to engage with friends/support services. I know where to go and get help. I can have fun, be active, and be healthy. 	<ul style="list-style-type: none"> I know I have control over my life, which includes planning ahead. When I need support, it looks at my whole situation, not just the one that might be an issue at the time. We start with a positive conversation, whatever my age. 	<ul style="list-style-type: none"> I understand the types of services available and can make informed decisions. I can make a positive choice about whether I move into a care home and have control over where and with whom I live. 	<ul style="list-style-type: none"> I know that I have some control over my life and that I will be treated with respect. I am listened to and heard and treated like I am an individual. I am seen as someone who has something to give, with abilities, not disabilities. I get support to help myself. I can manage money easily and use it much more flexibly. 	<ul style="list-style-type: none"> I deal with people I know and trust that are well-trained and love their job, and can make decisions with me. I am resilient and have good mental health and wellbeing. I have balance in my life, for example between being a parent, friend, partner, employee. 	<ul style="list-style-type: none"> I only tell my story once. The system is easy to navigate. I am listened to and heard.
